## THE CPM CCSS MATERIALS

### CCSS Supplements for CPM Textbooks (purchased prior to 2011)

The addition of the supplements below make the CPM Middle School and core High School texts compliant with the CCSS content standards and mathematical practices.

Use them with the *Connections* textbooks you previously purchased to meet the CCSS standards.

| ISBN-13           | PART # | DESCRIPTION   | PRICE    |
|-------------------|--------|---|----------|
| 978-1-60328-058-7 | MC-587 | 6th Grade Making Connections CCSS Supplement-Student              | \$ 1.50  |

### CCSS EDITION TEXTBOOKS (Purchases in 2011)

AVAILABLE ONLY THROUGH OCTOBER 31, 2011

CPM CCSS editions of the middle grades and high school courses will be completed by July 2012. However, you may begin using their content in "preliminary" form in 2011-12. To do so:

- Order the CCSS text(s) and supplement(s) from the list below in the **format you want to receive in 2012** (i.e., web-based ebook, hard bound or soft bound books, or both printed texts and web-based ebook licenses). Note that we will only be shipping the preliminary books in soft bound format this year, so if you order hard bounds you will receive soft bounds in 2011 but your replacements in 2012 will be hard bounds. **Likewise, ebook purchasers will use printed books in 2011-12.**
- In July 2012 you will be shipped replacement copies of the new CCSS student and teacher editions at no additional cost. CPM will pay the cost of shipping your replacements in 2012.
- The prices below reflect an additional \$10.00 per book that pays some of the cost to print the 2011 books and extends your use of the web-based eBook license(s) from 6 years to 7 years (HS only).
- The teacher editions are only available with a web-based ebook license. Teachers need it to access the password-protected resources that are part of the teacher edition "bundle." As more resources are added to the teacher editions, the web-based ebooks will automatically incorporate them for all users.
- The Teacher Edition bundles include: printed copy of the TE, PDF copy on a CD (except Calculus), and a six-year web-based ebook license. The resources include web-based assessment resources with a test generator, an assessment handbook (plus problems, projects, rubrics and portfolios), online applets for technology-based lessons, universal access guide with reading strategies, study team and team role guidelines and strategies, online homework help, SmartBoard-ready lessons, and video support for teaching specific lessons and the course in general. **Teacher edition ebooks for Core Connections (grades 6-8) will be available in 2012.**
- Those who adopt CPM are supported with several days of professional development by CPM mentor teachers during the implementation year. For full information, go to the CPM website: [www.cpm.org](http://www.cpm.org)

Softbound Sets are 2 volumes, Vol 1 & Vol 2 • Hardbounds are 1 book that includes both volumes

### Core Connections 6<sup>th</sup> Grade

| ITEM #  | DESCRIPTION  | PRICE     |
|---------|--|-----------|
| CCS-6S  | Core Connections, Course 1, Softbound Student Set              | \$ 59.00  |
