

TEAMS

- Together, work to answer questions.
 - Be sure that everyone understands the team's ideas about each problem before moving on.
 - Clear tables or desks before getting to work so you can see everyone's paper.
- Explain and give reasons.
- Ask questions and share ideas.
 - Helping does not mean giving answers; help by sharing your thinking and asking good questions.
 - Keep your conversations about math.
- Members of your team are your first resource.
 - Discuss questions and issues with your team before asking the teacher.
- Smarter together than apart.
